Smoothe Me Touch Straightener

- Pre-setting for fine, medium & coarse hair type
 - Ceramic Plate
 - Intuitive touch control 80 - 230°C
 - Dual voltage
 - Fast heat recovery
 - Auto shut off
 - 25mm plates
 - Temperature lock
 - 360° swivel cord
- 14492**

Smoothe Me XL Touch Straightener

- Pre-setting for fine, medium & coarse hair type
 - Ceramic Plate
 - Intuitive touch control 80 - 230°C
 - Dual voltage
 - Fast heat recovery
 - Auto shut off
 - 38mm plates
 - Temperature lock
 - 360° swivel cord
- 14493**

Smoothe & Curl Me Touch Straightener

- Soft Touch housing
 - 25mm plates
 - Ceramic plates to straighten, curl or slip hair
 - 210°C
 - 360° swivel cord
 - Fast heat recovery
 - Temperature Dial
- 14519**

SILVER BULLET

WHITE HEAT

Soft-touch housing, floating titanium plates with beveled edges, max temperature 230°C, digital heat control, ionic technology, multi-voltage, 1 hour auto-matic shut-off

25mm **12452**

RED HEAT

One plate has restorative infrared properties, Ceramic plates, 230°C. Infrared rays allow water, proteins and other nourishing ingredients in repair treatments to be vaporised into gaseous microscopic particles which penetrate the hair structure easily. This restores the hair's elasticity and smoothes the hair's cuticles

38mm **12451**

KERATHERAPY - Keratin treatment straightener

Keratherapy 29mm digital solo titanium iron 230°C
7650

These latest generation heaters provide a max temperature of 210°C, ultra-rapid heat-up times, consistent heat across the whole plate, damp to dry styling, ultra-rapid heat recovery and improved reliability. Tourmaline is nature's most effective ion generator making hair silkier and shinier. Ionic care for glossy and healthy hair. All 25mm

HairPRO 25MM ULTRASONIC/INFRA-RED HAIR CARE IRON:

This unique iron combines ultrasonic technology with infrared rays, allowing water, proteins and other nourishment substances found in repair treatments to be vapourized into gaseous, microscopic particles that penetrate the hair structure easily; thus positioning these nourishment ingredients where they have the best effect. The infrared rays enhance this by encouraging such penetration and in so doing, restores the hair's elasticity and smoothes the cuticles. This hair care iron can be used with most treatments and, particularly, with BRASIL CACAU KERATIN NOURISHMENT TREATMENT & ARGAN VELVET.

PLEASE NOTE: THIS IRON DOES NOT GENERATE HEAT & DOES NOT STRAIGHTEN HAIR
6945

HairPRO

TREATMENT
IRON

Negative ion technology allows brilliant straightening capabilities, delivering results that leave hair sleek, shiny & lustrous

Features:

- Rotating power cord
- Heats to 230°C
- Cast iron base with ceramic coating
- Vinyl heat-resistant tips, that do not break off and snag hair
- Scalp protection technology
- Handle will not heat up
- LED display

TITANIUM PLATE WITH SILICONE INSERT

The SILICONE Styler is the only straightener that combines advanced, patented silicone and titanium technology on the plates. This industry leader uses ion-processed silicone strips mounted on the plates to provide the most ideal amount of pressure to the hair for easy, stress-free straightening. Laboratory tests prove that they add moisture to the hair with every pass, keeping the hair healthy, silky and straight
